

Developing my

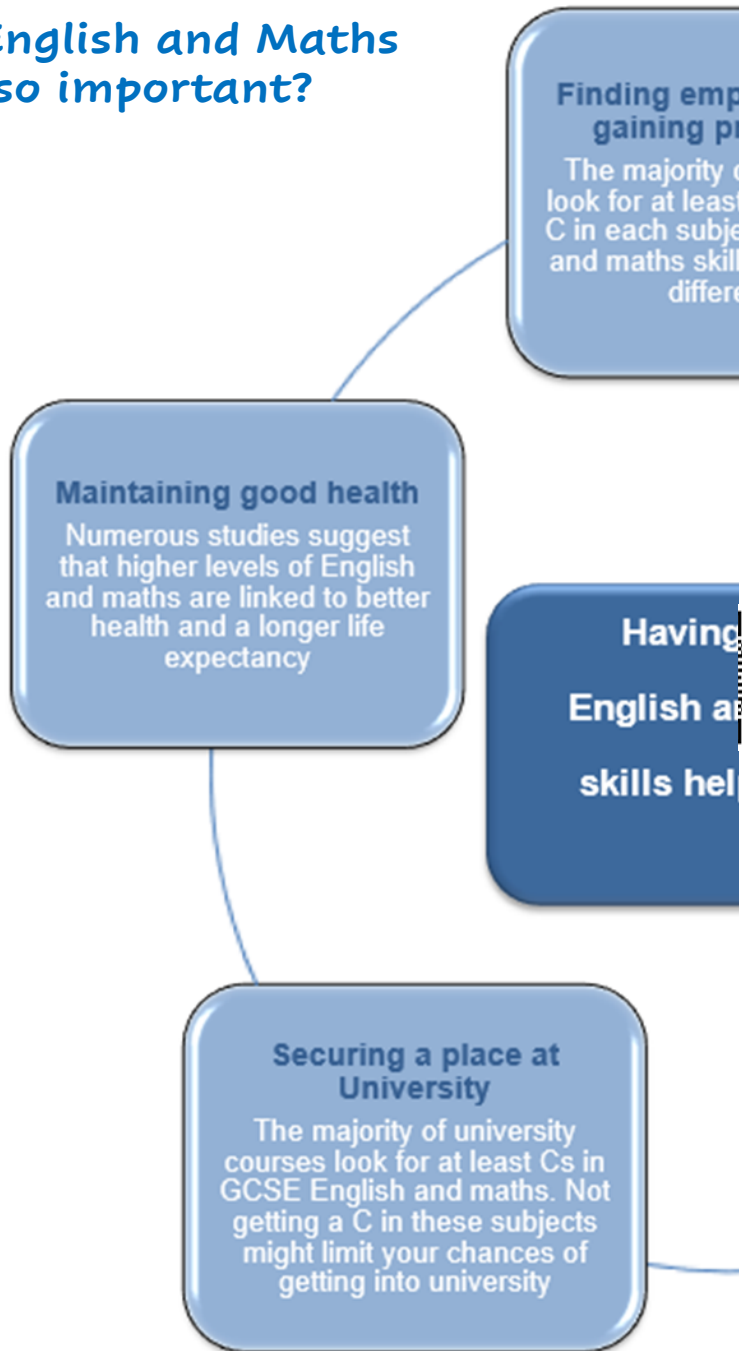

and

Skills

Name: _____

Why are English and Maths skills so important?

Finding employment and gaining progression

The majority of employers look for at least a C in each subject and maths skills differ

Maintaining good health

Numerous studies suggest that higher levels of English and maths are linked to better health and a longer life expectancy

Having good English and Maths skills helps you

Securing a place at University

The majority of university courses look for at least Cs in GCSE English and maths. Not getting a C in these subjects might limit your chances of getting into university

Developing Maths Skills

Every day, without always realising it, we use maths to complete a range of tasks. For example...

Numbers and the number system

Calculating
Numbering pages
Counting

Data Handling

Creating tables
Collecting and organising information
Reading graphs/tables

Measures, Shape and Space

Time keeping
Making a cup of tea
Measuring own progress while on course
